

The slide features a decorative border at the top and bottom consisting of a honeycomb pattern. The top border is a single row of yellow hexagons with black outlines, where one hexagon on the left and one on the right are a darker shade of yellow. The bottom border is similar, with two darker yellow hexagons. The background of the slide is a light blue gradient with a faint, larger-scale honeycomb pattern.

Feed The Pollinators

Examples Of Pollinators

- Insects
- Birds
- Mammals
- Other animals
- Humans

Insects

Birds

- Hummingbirds (Trochilidae family)
- - Rufous hummingbird (*Selasphorus rufus*)
- Calliope hummingbird (*Selasphorus calliope*)

Mammals

- Bats (Chiroptera)
-
- Little brown bat (*Myotis lucifugus*)
- Hoary bat (*Lasiurus cinereus*)

Other Animals

- Reptiles**
 - - Some species of lizards, such as the Day gecko (*Phelsuma* spp.)

Humans

- Humans also play a role in pollination through hand pollination in agriculture and horticulture.

Plants that feed pollinators

- Trees
- Shrubs
- Wild Flowers
- Herbs
- Annuals

Trees

- Trees provide nectar and Pollen.
- earliest pollen sources in the year
- Downward orientation
- One Large tree = acre of flowers.

Cottonwood (Populus spp.)

- Bloom Time: March to April
- Pollinators: Wind-pollinated, but bees visit catkins for pollen

Pacific Dogwood (*Cornus nuttallii*)

- Bloom Time: April to May
- Pollinators: Bees, butterflies

Cherry (Prunus spp.)

- Bloom Time: March to April
- Pollinators: Bees

Plum (*Prunus domestica*)

- Bloom Time: March to April
- Pollinators: Bees

Apple (Moles spp.)

- Bloom Time: April to May
- Pollinators: Bees

Elderberry (Sambucus spp.)

- Bloom Time: late May to early July.
- Pollinators: Bees (various species), Flies (such as hoverflies), Butterflies

Ash (*Fraxinus excelsior*)

- Bloom Time: May to June
- - Pollinators: Wind-pollinated, but bees visit for pollen

Hawthorn

(*Crataegus ongoing*)

- Bloom Time: May to June
- - Pollinators: Bees, flies, and beetles

Hawthorn (*Crataegus* spp.)

Lilac (*Syringa spp.*)

- Bloom Time: May to June
- Pollinators: Bees and butterflies

Meadow Rue (*Thalictrum spp.*)

- Bloom Time: May to June
- Pollinators: Bees and flies

Bugleweed (*Ajuga reptans*)

- Bloom Time: May to June
- Pollinators: Bees and butterflies

Horse Chestnut

(**Aesculus hippocastanum**)

- Bloom Time: May to June
- Pollinators: Bees and other insects

Violet (*Viola spp.*)

- Bloom Time: April to June
- Pollinators: Bees

Raspberries and Blackberries

(*Rubus spp.*)

- Bloom Time: May to July
- Pollinators: Bees

Yarrow (*Achillea millefolium*)

- Bloom Time: June to September
- Pollinators: Bees, Butterflies, Moths, Beetles, Flies

Yarrow (*Achillea millefolium*)

Yarrow is a hardy, perennial herb that grows in a variety of habitats, including meadows, fields, and roadsides. It is characterized by its finely divided, feathery leaves and small, white, daisy-like flowers. Yarrow is a member of the Asteraceae family and is native to Europe and Asia. It has been used for centuries in traditional medicine for its anti-inflammatory and antispasmodic properties. Yarrow is also a popular herb for drying and use in teas and tinctures. It is a good source of iron and is often used to treat menstrual cramps and other gynecological issues. Yarrow is also used to treat skin conditions such as eczema and psoriasis. It is a good herb for drying and use in teas and tinctures. It is a good source of iron and is often used to treat menstrual cramps and other gynecological issues. Yarrow is also used to treat skin conditions such as eczema and psoriasis.

Roses (*Rosa spp.*)

- Bloom Time: June to August
- Pollinators: Bees, butterflies, and other insects

Milkweeds (*Asclepias spp.*)

- Bloom Time: June to August
- Pollinators: Bees, butterflies, especially monarchs

Milkweed (*Asclepias* spp.)

Coneflowers

(*Echinacea spp.*)

- Bloom Time: June to August
- Pollinators: Bees, butterflies

Sunflowers

(*Helianthus spp.*)

- Bloom Time: July to September
- Pollinators: Bees, butterflies, and other insects

Viburnum spp.

- Bloom Time: May to June
- Pollinators: Bees and butterflies

Goldenrods (*Solidago spp.*)

- Bloom Time: August to October
- Pollinators: Bees, butterflies, and other insects

Asters (*Symphyotrichum spp.*)*

- Bloom Time: August to October
- Pollinators: Bees, butterflies, and other insects

Black-eyed Susan (*Rudbeckia spp.*)

- Bloom Time: June to September
- Pollinators: Bees and butterflies

Borage (*Borago officinalis*)

- Bloom Time: Late Spring to Fall
- Pollinators: Honeybees, bumblebees, butterflies

Borage (*Borago officinalis*)

Lavender (*Lavandula spp.*)

- Bloom Time: Late Spring to Summer
- Pollinators: Bees and butterflies

Comfrey (*Symphytum officinale*)

- Bloom Time: May to August
- Pollinators: Bees, bumblebees, butterflies, and moths

Bugleweed (*Ajuga reptans*)

- Bloom Time: April to June
- Pollinators: Bees, Butterflies, Moths

Dead Nettle (*Lamium spp.*)

- Bloom Time: April to June
- Pollinators: Bees

Lungwort (*Pulmonaria spp.*)

- Bloom Time: March to May
- Pollinators: Bees

Mint (*Mentha spp.*)

- Bloom Time: June to September
- Pollinators: Bees and butterflies

Thyme (*Thymus spp.*)

- Bloom Time: June to August
- Pollinators: Bees and butterflies

Oregano (*Origanum vulgare*)

- Bloom Time: July to September
- Pollinators: Bees and butterflies

Marigold (*Tagetes spp.*)

- Bloom Time: Spring to Fall
- Pollinators: Bees and butterflies

Calendula (*Calendula officinalis*)

- Bloom Time: Spring to Fall
- Pollinators: Bees, butterflies, hoverflies, and other beneficial insects

Calendula (*Calendula officinalis*)

Mustard (*Brassica* spp.)

Pollinators
:

- Bloom Time: March to September
- Pollinators: Bees, Butterflies, Hoverflies, Beetles

Snapdragon (*Antirrhinum spp.*)

- Bloom Time: Spring to Fall
- Pollinators: Bees

Butterfly Bush

(*Buddleja spp.*)

- Bloom Time: Summer to Fall
- Pollinators: Butterflies and bees

Cow Parsnip

(*Heracleum maximum*)

- Bloom Time: Late Spring to Summer
- Pollinators: Bees and flies

Cow parsnip vs hemlock

- These two plants are easily mistaken Don't harvest hemlock it is poisonous

Dahlia (*Dahlia spp.*)

- Bloom Time: Summer to Fall
- Pollinators: Bees and butterflies

English Daisy (*Bellis perennis*)

- Bloom Time: Spring to Fall
- Pollinators: Bees

Comfrey (*Symphytum officinale*)
